Construction

Desking

- 1 25 mm thick melamine tops, with a decorative sheet on both sides of the top. Particle board, density 710 Kg/m³ covered with a decorative wood finish sheet. Both sides of the top treated against refelection. Desk tops are PEFC™ compliant guaranteeing the wood is sourced from sustainably managed forests, and they are made from M3 certified fire resistant panels (combustible, moderately flammable) compliant with NF EN 13501-1. They are also certified E1 (control of formaldehyde emissions) and have an emission of 6.5 mg HCNO/100 mg compliant with the standard NF EN 717-2. Inlaid melamine top, resting on the cross-beams. The top is fixed to the structure by means of metal screws and inserts. 2 mm thick ABS (Acrylonitrile butadiene styrene) resistant contour edging, rounded at the top and bottom for increased user comfort, in a finish matching the top.
- 2 Glass tops made from 8 mm thick toughened glass, flattened and polished joints. Glass top is enamelled on the underside. Glass top rests on plots with suction caps : circular metal frame ø 30 mm, H. 15 mm fixed to the frame by means of screws. Translucid suction cap ø 30 mm positioned on top of the frame.
- 3 Frame comprises two metal tubular cross-beams, cross-section 60 x 30 mm, 2 mm thick.
- 4 Fixed bridge-shaped metal legs, tubular legs of cross-section 60 x 30 mm, fitted with rectangular ABS end caps in a finish matching the legs.
- 5 Stabilizer feet, adjustable through 15 mm.
- 6 Optional metal modesty panel fixed by means of metal screws and inserts to the underside of the melamine tops or linked to the metal cross-beam of cross-section 30 x 30 mm attached to the legs for the glass top desks. Modesty panel set back by 162 mm in comparison to the edge of the melamine top, and 185 mm compared to the edge of the glass top.
- 7 Desk height : 73.5 cm.

Easy-reach storage units

Metal pedestals - 2 and 3 drawers

- 1 Mobile pedestal shell : one-piece construction steel sheet belt, 0.8 mm in thickness. Metal frame. Shockproof covering, epoxy-polyester lacquered, point-welded structure.
- 2 Stabilizer feet / castors : mobile pedestal fitted with 4 multidirectional castors ø 37 mm in the base of the pedestal. The filing drawer is equipped with a 5th castor to prevent tipping.
- 3 Drawers : drawer shell made from steel sheet 7/10 mm in thickness with lateral handles ; box drawer on telescopic glides with ball-bearing runners. Open to 80%. Large storage capacity, over the entire depth. Filing volume : approx. 50 files. Selective opening mechanism which allows only one drawer to be opened at a time.
Max. load per drawer :
filing drawer = 18 kg.
mobile pedestal : box drawer = 10 kg.
filing drawer = 18 kg.
- 4 Decorative top : supporting metal top made from folded steel sheet, 8/10 mm in thickness. Epoxy paint. Optional melamine top, 25 mm or 30 mm in thickness according to the desk range. Fixed by means of double sided adhesive tape.
- 5 Excentric locking mechanism, central locking via a rod that slides into position, drawers open selectively (only one drawer at a time). Numbered lock and cylinder, interchangeable, supplied with 2 keys of which 1 is a folding key with cap, the other key is a standard key. Master key available on request.
- 6 All of the pedestals are fitted with a removeable pen tray made from black polystyrene, in the top box drawer.

Construction

Meeting tables

- 1 25 mm thick melamine tops, with a decorative sheet on both sides of the top. Particle board density 630 to 710 Kg/m³.
- 2 2 mm thick ABS contour banding, rounded at the top and bottom for increased user comfort, in a finish matching the top.
- 3 8 mm thick toughened enamelled glass tops, polished and flattened joints. The underside of the top is enamelled (barrel table not available).
- 4 Central fixed square stem comprising a top metal square-shaped plate 40 x 40 cm, 6 mm in thickness, a metal square-shaped upright (cross-section 8 x 8 cm) and a square base (49 x 49 cm). Assembly of the plate and base onto the upright by means of screws.

Traditional swing door cupboards

- 1 Melamine cupboard shell and shelves, 19 mm in thickness, in a white or aluminium grey finish. Fibreboard panels density 630 to 710 kg/m³. Thin edging, 6/10 mm in thickness, in a finish matching the cupboard finish.
- 2 Melamine doors, 19 mm in thickness, in a finish matching the desks, decorative layer on both sides of the doors. Fibreboard panels density 630 to 710 kg/m³.
- 3 Toughened glass doors, 6 mm in thickness, in an enamelled finish matching the desks.
- 4 Metal handles (axis 96 mm).
- 5 Chromed lock, 3-point lock for the high cupboard doors and 1-point lock for the medium and low cupboard doors, glass doors not lockable. Cupboards are supplied with 2 keys (1 of which is a folding key with cap).
- 6 Metal hinges in a chromed finish : 3 for the high cupboard doors, 2 for the medium and low cupboard doors.
- 7 Cupboard rests on 4 ABS stabilizer feet matching the cupboard shell. Stabilizer feet ø 25 mm, H. 28 mm, adjustable through 15 mm.
- 8 Optional melamine decorative top, 25 mm in thickness. W. 80 x D. 43.2 x H. 2.5 cm
- 9 Assembly by means of cam fittings, held in position by means of dowels.
- 10 Melamine shelves adjustable at 32 mm intervals. Shelves are systematically supplied in the cupboard shell finish. High cupboards with 4 doors are fitted with a fixed shelf.
- 11 Interior fittings and associated products : additional melamine and/or metal shelf, set of 2 rails for suspension files, telescopic filing cradles.

Interior fittings and usable dimensions :

Cupboards H. 197,3 cm	4 melamine shelves	Up to 5 rows of suspension files*	H. 190 x W. 76.15 x D. 38.3 cm
Cupboards H. 133,3 cm	3 melamine shelves	Up to 4 rows of suspension files*	H. 126 x W. 76.15 x D. 38.3 cm
Cupboards H. 71 cm	1 melamine shelf		H. 62 x W. 76.15 x D. 38.3 cm

*Thanks to optional metal shelves.

Standards

ISO 14001 is an international reference recognized as an environmental management system. Based on the principle of continuous improvement (or the Deming circle), its intention is to identify, verify and master the environmental aspects of all organisms and specify how to control the entire system.

The PEFC brand guarantees that the purchased product comes from responsible sources and that through your purchase you participate in sustainable forest management.
