

SPACIA

The Spacia conference table is made entirely of Structurex® panels, creating a highly natural appearance. Designed with generous dimensions, Spacia provides the users with plenty of working space. The mitre cut between the top and the leg gives the Spacia table a refined aspect.

1. Top access hatch with built-in shelf to install power outlets and to feed cables. 2. Leg and top assembled with 45° mitre cut.

Technical description

25 mm thick Structurex® desk top. 2 mm thick shock-proof ABS edging.

Top access hatch with built-in shelf to install power outlets and to feed cables.

Leg and top assembled with 45° mitre cut.

End legs made of 25 mm thick Structurex® panels, 2 mm thick shock-proof ABS edging.

Next leg element recessed in order to move easily from one desk to another.

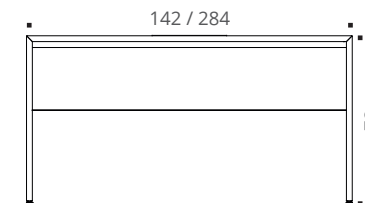

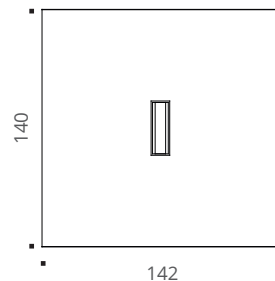

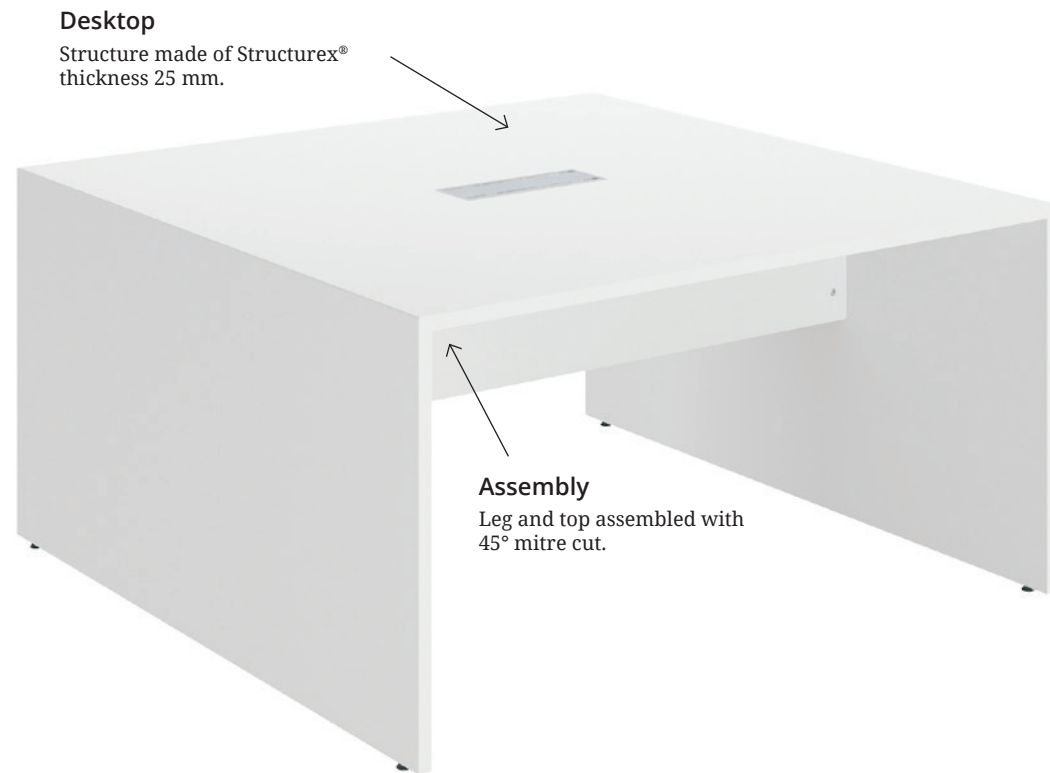

Intermediate leg composed of one 38 mm thick Nitech® panels inserted between two Structurex® panels fitted with a port hole at the top and the bottom for discreet cable management inside two facings.

Adjustable screw feet to compensate for any unevenness in the floor.

16 mm thick Structurex® structural stiffeners, 2 mm thick shock-proof ABS edging.

Steel reinforcement beam, epoxy finish.

The conference table can be extended indefinitely using module on shared arch, each extension can seat an extra 4 people.
